Dear Sirs,

**Sub: Intimation under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015- Newspaper Publication of Unaudited Financial Results for the third quarter and nine month ended December 31, 2025.**

**Ref : SCRIP Code 514171.**

Pursuant to Regulation 30 and 47 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we enclose herewith the copies of newspaper advertisement published in Business line (English Edition) and Vijay Karnataka (Kannada Edition) on February 13, 2026 w.r.t the publishing of unaudited financial results for the third quarter and nine month ended December 31, 2025.

Kindly take the same on record.

Thanking you.

Yours Faithfully,  
For Ceeta Industries Limited

Smally Agarwal  
Company Secretary & Compliance Officer

Enclosed: As stated

QUICKLY.

MoD inks deal with HAL for eight Dornier aircraft

**New Delhi:** The Ministry of Defence has signed a contract with Hindustan Aeronautics Ltd to acquire eight Dornier 228 aircraft, along with operational role equipment for the Indian Coast Guard at a cost of ₹2,312 crore, under the Buy (Indian) category. This is part of the capacity building exercise by the Coast Guard which aims to increase its fleet of air assets from existing 80, which includes aircraft and choppers, to 100 by 2030. HAL's Kanpur-based Transport Aircraft Division inked the contract in the presence of Defence Secretary Rajesh Kumar Singh in Delhi. **OUR BUREAU**

Matrimony.com Q3 PAT down 17% at ₹8.3 crore

**Chennai:** Online matrimony company Matrimony.com reported a 1.8 per cent fall in revenue in the quarter ended December 2025 at ₹113.2 crore against ₹114.4 crore in the same quarter last year. The company's PAT stood at ₹8.3 crore, a 17 per cent decline from the ₹10 crore posted in the same quarter previous year. Billings increased 7.7 per cent to ₹118 crore. During the quarter, the company initiated a share buyback amounting to ₹58.50 crore, which is expected to be completed by Q4 FY26. **OUR BUREAU**

# Farmers, trade unions protest against labour codes, US trade deal

**UP IN ARMS.** Several Opposition parties back bandh; protesters call to scrap VB-G-RAM G Act, draft Seed Bill

**Our Bureau**  
New Delhi

Trade unions and farmer groups staged a nationwide one-day strike against the implementation of labour codes and the proposed US trade deal, with reports indicating a mixed response across States.

The joint platform of Central Trade Unions (CTUs) and independent sectoral federations termed the Bharat Bandh a "grand success" in a joint statement. Protesters hit the streets with banners and slogans, calling the labour codes "pro-corporate" and a "direct attack on workers' rights", and describing the trade deal as a "total sur-

render" to the US. They also demanded withdrawal of the draft Seed Bill, the Electricity Amendment Bill and the proposed SHANTI Act, alleging that it would open nuclear power generation to private and foreign players driven by profit.

**OTHER DEMANDS**

Among other demands were restoration of MGNREGA, scrapping of the Viksit Bharat-Guarantee for Rozgar and Ajeevika Mission (Gramin) Act, 2025, reversal of 100 per cent FDI in insurance, withdrawal of the Viksit Bharat Shiksha Adhishthan Bill, 2025, and filling vacant government posts.

The Congress and several Opposition parties backed

**UNITED FRONT.** Members of various trade unions raising slogans during a nationwide strike against the Centre's policies, in Gurugram, Haryana, on Thursday **PTI**

the bandh. Leader of the Opposition in the Lok Sabha Rahul Gandhi said farmers fear that trade agreements would "strike a blow to their livelihood."

However, Congress MP

Shashi Tharoor criticised "coercive disruptions" in Kerala, remarking that the Bharat Bandh had effectively become a "Kerala Bandh."

While supporting the right to protest, he opposed "militant unionism" that hampers industrial growth.

Students and youth joined protests in several places, raising slogans on education and employment. Women workers from ICDS, ASHA, mid-day meal schemes, *beedi*, domestic work and other unorganised sectors led road and rail blockades in some areas. E-rickshaw drivers, auto and taxi unions also participated in parts of the country.

In Maharashtra, the strike drew a mixed response, with business largely continuing amid sporadic disruptions.

# Madras HC orders enquiry into corruption allegations at NLC India

**Our Bureau**  
Chennai

The Madras High Court on Wednesday directed the Central Bureau of Investigation (CBI) to conduct an inquiry into corruption allegations against Neyveli Lignite Corporation India Ltd (NLC), a public sector undertaking under the Coal Ministry.

This is in response to a petition by Cuddalore-based petitioner H Manikandan, who moved the court asking it to direct a CBI probe into certain projects undertaken by NLC. However, the High Court declined to order immediate registration of a first information report (FIR).

"Merely because a complaint is filed, an FIR cannot be registered straight away, unless it is verified and found there is prima-facie material to proceed further," Justice M Nirmal Kumar said in the order.

He also directed the CBI to summon the petitioner for enquiry on February 23 and thereafter on subsequent dates, if required, and directed the petitioner to appear and provide all details and supporting documents.

The petitioner alleged that senior NLC officials colluded with private contractors and other entities, and engaged in instances of financial misconduct totalling approximately to ₹422 crore.

These include fraudulent contract amendments, exorbitant tender awards, and

the falsification of documents, among others. These instances relate to the period between 2022 and 2025.

**FIVE CATEGORIES**

Per a complaint by the petitioner on July 23, 2025, the allegations are categorised into five categories of irregularities in the Talabira Thermal Power Project in Odisha, where a contract worth ₹137 crore was awarded to RSB Projects Pvt Ltd.

The other related to misconduct allegations around the construction of integrated township. The third instance involves certain irregularities in the sale and transport of Pond Ash. Misuse of CSR funds, and use of a purportedly forged authorisation letter in dealings with EXIM Bank, are also alleged.

The complaint was forwarded within the CBI and the petitioner was contacted for further details, but no FIR was registered, following which the petitioner approached the High Court.

The CBI defended its refusal to register an FIR by arguing that the petitioner's complaint consisted of vague and unverified allegations unsupported by any concrete evidence.

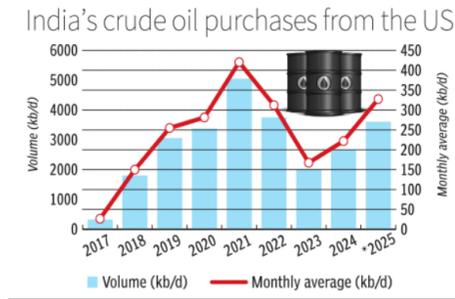

# Import of US crude in 2025 may be 2<sup>nd</sup> highest on record

**Rishi Ranjan Kala**  
New Delhi

Amid pressure from the US on India to stop Russian crude oil imports, Washington's exports of the geopolitically-sensitive commodity to New Delhi are already set to hit the second-highest on record in CY2025.

According to the latest data from the US Energy Information Administration (EIA), cumulative US crude oil exports to India stood around 3,603 thousand barrels per day (kb/d) during the January-November 2025 period, averaging at roughly 327.55 kb/d per month. The export numbers for December 2025 are yet to be updated.

Currently, the 2025 ex-

\*Jan-Nov2025 Source: US Energy Information Administration

port volumes are the third-highest on record, after CY2021 (5,046 kb/d) and CY2022 (3,745 kb/d).

Refiners and analysts, however, said India has upped its crude oil purchases

from the US, and this year's numbers are expected to surpass the volume recorded in 2022.

**RISING US SHARE**

The rising US share carries

strategic value and supports diversification strategies. Higher energy imports from Washington will help narrow India's trade deficit with the US and fit into New Delhi's broader strategy of diversifying energy supply chains. The increase in crude trade also reinforces energy co-operation between New Delhi and Washington.

However, India's purchases of US crude oil, particularly WTI Midland and Eagle Ford grades, have limited upside. For instance, WTI Midland, a light (API 40-42), naphtha-rich crude, yields fewer middle distillates (diesel) than the medium and heavy sour Indian refineries are optimised for.

US crude grades may replace some volumes from West Africa, such as Nigeria,

which supplies light sweet crudes such as Bonny Light.

The longer voyage time (45-55 days) and higher freight costs compared with Middle Eastern and African grades curb competitiveness.

The elevated US presence in India's crude basket underscores the deepening strategic energy alignment between the two countries and supports India's broader diversification strategy balancing security, economics and geopolitics.

# Arvind SmartSpaces unveils ₹9,500 cr project pipeline across Gujarat, Maharashtra & Karnataka

**Avinash Nair**  
Ahmedabad

Arvind SmartSpaces Ltd is preparing to roll out ₹9,500 crore worth of yet-to-be-launched projects across Gujarat, Maharashtra and Karnataka over the next 4-5 years, with a significant portion expected to hit the market in the next 18 months, even as the broader residential cycle shows signs of stabilising.

Detailing the upcoming inventory, the company stated that Gujarat with ₹5,077 crore worth of yet to be launched projects occupy the biggest pie, followed by Karnataka and Maharashtra where ₹2,899 crore and ₹1,520 crore worth of projects are planned respectively.

"Most of these projects are work in progress. Some of these are very large projects and so there is a possibility that some of the phases

**The company intends to launch ₹1,500 crore worth of projects in the ongoing fourth quarter of FY26**

of these projects will come in 1-1.5 years. But largely, when you look at that kind of inventory, we are looking to monetise most of the assets over the next 4-5 years — from the launch, selling and construction perspective. From an inventory point of view, this is quite Ahmedabad-heavy. But over 18 months, we expect most of this inventory to start coming into the market," Priyansh Kapoor, MD & CEO, told investors on Wednesday.

**LAUNCH TARGETS MISS** Despite the strong pipeline visibility, the company has fallen short of its launch

guidance for the current financial year, largely due to slower-than-anticipated approvals and phased project rollouts.

"We were aiming for ₹2,500 crore worth of launches for the year and we have done only ₹500 crore. We should have done at least ₹2,000 crore of inventory in the last quarter. In Bengaluru, out of the two projects that we were thinking we will get in the current year, we will probably get one of those. That is why our current estimate is less on the approval front. Second, we had also mentioned that the industrial project will come in parts and Vadodara we are doing in phases," Kapoor said, adding that the company intends to launch ₹1,500 crore worth of projects in the ongoing fourth quarter of FY26.

Kapoor indicated that the residential market has entered a phase of stabilisation after the strong mo-

mentum seen in the previous financial year. The company's focus segments, he said, are performing well, and management does not see any immediate cause for concern given the portfolio mix and product positioning. He added that regulatory changes in Karnataka have contributed to slower approvals.

**NEW LAUNCHES IN Q4**

In the March quarter, Arvind SmartSpaces is looking to step up activity with ₹1,500 crore worth of launches. This includes the first phase of its Vadodara project — entailing around ₹400 crore of inventory as part of a larger ₹700 crore development — as well as the phase-1 launch of its industrial project in Ahmedabad.

The industrial development has a total project cost of about ₹1,500 crore, with the initial phase pegged at roughly ₹600-650 crore of inventory.

# Welspun Living Q3 profit plummets 99.8% on weak revenues

**Our Bureau**  
Ahmedabad

Gujarat-based Welspun Living Ltd reported a steep 99.8 per cent decline in consolidated net profit for the third quarter of FY26, dragged by subdued demand in its home textiles and flooring segments. Profit attributable to the owners fell to ₹0.21 crore, down from ₹120.83 crore in the same quarter last year. Revenue from operations was down 9 per cent to ₹2,262 crore. The home textiles segment saw a 4.7 per cent drop, while the flooring business recorded a sharper decline of 20.4 per cent.

On the corporate front, the board has approved the redemption of 13,89,575 zero per cent Redeemable Preference Shares at an issue price of ₹1,000 per share, issued by Welspun Global Brands Ltd, a subsidiary of the company.

# India contributed 42% of fresh pipeline for Marriott in 2025

**Aneesh Phadnis**  
Mumbai

India was among the top-performing regions for Marriott International in the Asia-Pacific (excluding China), accounting for 42 per cent of signed rooms in 2025.

The US-headquartered hotel chain said the region saw its third consecutive year of record growth with 187 deals, representing a pipeline of 28,000 rooms. This was 32 per cent higher year-on-year.

The top five growth markets in the Asia-Pacific (excluding China) with the highest number of signings in 2025 were India, Thailand, Vietnam, Malaysia and Japan. India saw the most sign-

India saw the most signings, with 99 deals, representing over 12,000 rooms

ings, with a record 99 deals, representing over 12,000 rooms.

Last year, the chain affiliated with The Fern brand in India, resulting in the conversion of 26 existing prop-

erties under the new Series by Marriott brand.

The deal led to the conversion of 26 hotels to the brand in a single day, adding 1,900 rooms to its portfolio overnight.

**"SCALE WITH PURPOSE"**

"Our record performance in 2025 underscores the strength of Marriott's growth engine across the region, and the enduring confidence our hotel owners place in our brands and operating platform. Sustained intra-regional and international travel demand and a diversified portfolio have enabled us to add scale with purpose," said Rajeev Menon, President, Asia-Pacific (excluding China), Marriott International.

**E-AUCTION SALE NOTICE**
